

455B.172 Jurisdiction of department and local boards.

1. The department is the agency of the state to prevent, abate, or control water pollution and to conduct the public water supply program.
2. The department shall carry out the responsibilities of the state related to private water supplies and private sewage disposal systems for the protection of the environment and the public health and safety of the citizens of the state.
3. Each county board of health shall adopt standards for private water supplies and private sewage disposal facilities. These standards shall be at least as stringent but consistent with the standards adopted by the commission. If a county board of health has not adopted standards for private water supplies and private sewage disposal facilities, the standards adopted by the commission shall be applied and enforced within the county by the county board of health.
4. Each county board of health shall regulate the private water supply and private sewage disposal facilities located within the county board's jurisdiction, including the enforcement of standards adopted pursuant to this section.
5. The department shall maintain jurisdiction over and regulate the direct discharge to a water of the state. The department shall retain concurrent authority to enforce state standards for private water supply and private sewage disposal facilities within a county, and exercise departmental authority if the county board of health fails to fulfill board responsibilities pursuant to this section.

The department shall by rule adopt standards for the commercial cleaning of private sewage disposal facilities, including but not limited to septic tanks, and for the disposal of waste from the facilities. The standards shall not be in conflict with the state building code adopted pursuant to section 103A.7. A person shall not commercially clean such facilities or dispose of waste from such facilities unless the person has been issued a license by the department. The department shall be exclusively responsible for adopting the standards and issuing licenses. However, county boards of health shall enforce the standards and licensing requirements established by the department. The department may contract for the delegation of the authority for inspection of land application sites, record reviews, and equipment inspections to a county board of health. In the event of entering into such a contract, the department shall retain concurrent authority over such activities. Application for the license shall be made in the manner provided by the department. Licenses expire one year from the date of issue unless revoked and may be renewed in the manner provided by the department. A license application shall include registration applications for each vehicle used by the applicant for purposes of collecting septage from private sewage disposal facilities and each vehicle used by the applicant for purposes of applying septage to land. Septic disposal management plans shall be submitted to the department and approved annually as a condition of licensing and shall also be filed annually with the county board of health in the county where a proposed septage application site is located. The septic disposal management plan shall include, but not be limited to, the sites of septage application, the anticipated volume of septage applied to each site, the area of each septage application site, the type of application to be used at each site, the volume of septage expected to be collected from private sewage disposal facilities, and a list of registered vehicles collecting septage from private sewage disposal facilities and applying septage to land. The annual license or license renewal fee for a person commercially cleaning private sewage disposal facilities shall be established by the department based on the volume of septage that is applied to land. A septic management fund is created in the state treasury under the control of the department. Annual license and license renewal fees collected pursuant to this section shall be deposited in the septic management fund and are appropriated to the department for purposes of contracting with county boards of health to conduct land application site inspections, record reviews, and septic cleaning equipment inspections. A person violating this section or the rules adopted pursuant to this section as determined by the department is subject to a civil penalty of not more than two hundred fifty dollars. The department shall adopt rules related to, but not limited to, recordkeeping requirements, application procedures and limitations, contamination issues, loss

of septage, failure to file a septic disposal management plan, application by vehicles that are not properly registered, wrongful application, and violations of a septic disposal management plan. Each day that a violation continues constitutes a separate offense. The penalty shall be assessed for the duration of time commencing with the time the violation begins and ending with the time the violation is corrected. The septic disposal management plan may be examined to determine the duration of the violation. Moneys collected by the department from the imposition of civil penalties shall be deposited in the general fund of the state. Moneys collected by a county board of health from the imposition of civil penalties shall be deposited in the general fund of the county.

6. *a.* The department shall by rule adopt standards for the commercial cleaning of toilet units and for the disposal of waste from toilet units. Waste from toilet units shall be disposed of at a wastewater treatment facility and shall not be applied to land. The department may contract for the delegation of the authority for inspection of record reviews and equipment inspections for such units to a county board of health. In the event of entering into such a contract, the department shall retain concurrent authority over such activities.

b. A person shall not commercially clean toilet units or dispose of waste from such units unless the person has been issued a license by the department. The department shall be exclusively responsible for adopting the standards and issuing licenses. However, county boards of health shall enforce the standards and licensing requirements established by the department. Application for the license shall be made in the manner provided by the department. Licenses expire one year from the date of issue unless revoked and may be renewed in the manner provided by the department. A license application shall include registration applications for each vehicle used by the applicant for purposes of collecting waste from toilet units and each vehicle used by the applicant for purposes of transporting waste from toilet units to a wastewater treatment facility. The annual license or license renewal fee for a person commercially cleaning toilet units shall be established by the department based on the number of trucks or vehicles used by the licensee for purposes of commercial cleaning of toilet units and for the disposal of waste from the toilet units. For purposes of this subsection, "vehicle" includes a trailer.

c. A toilet unit fund is created in the state treasury under the control of the department. Annual license and license renewal fees collected pursuant to this subsection shall be deposited in the toilet unit fund and are appropriated to the department for purposes of contracting with county boards of health to conduct record reviews and toilet unit cleaning equipment inspections.

d. A person violating this section or the rules adopted pursuant to this section as determined by the department is subject to a civil penalty of not more than five hundred dollars. Each day that a violation continues constitutes a separate offense. The penalty shall be assessed for the duration of time commencing with the time the violation begins and ending with the time the violation is corrected. Moneys collected by the department from the imposition of civil penalties shall be deposited in the general fund of the state. Moneys collected by a county board of health from the imposition of civil penalties shall be deposited in the general fund of the county.

7. *a.* The department is the state agency to regulate the construction, reconstruction and abandonment of all of the following water wells:

(1) Those used as part of a public water supply system as defined in section 455B.171.

(2) Those used for the withdrawal of water for which a permit is required pursuant to section 455B.268, subsection 1.

(3) Those used for the purpose of monitoring groundwater quantity and quality required or installed pursuant to directions or regulations of the department.

b. A local board of health is the agency to regulate the construction, reconstruction and abandonment of water

wells not otherwise regulated by the department. The local board of health shall not adopt standards relative to the construction, reconstruction and abandonment of wells less stringent than those adopted by the department.

8. The department is the state agency to regulate the registration or certification of water well contractors pursuant to section 455B.187 or section 455B.190A.

9. Pursuant to chapter 28E, the department may delegate its authority for regulation of the construction, reconstruction and abandonment of water wells specified in subsection 7 or the registration of water well contractors specified in subsection 8 to boards of health or other agencies which have adequate authority and ability to administer and enforce the requirements established by law or rule.

10. Any county ordinance related to sewage sludge which is in effect on March 1, 1997, shall not be preempted by any provision of section 455B.171, 455B.174, 455B.183, or 455B.304.
